

# Local Artist Spotlight: Calvin Rainwater

Calvin Rainwater's EP "Sinners & Saints" was released April 14. Here is a bit about this local musician from his website, [www.calvinrainwater.com](http://www.calvinrainwater.com).

*"Raised in a small town in Arizona, Calvin Rainwater has always felt a passion for music. Drawn to his grandfather's guitar, he would often spend hours sitting on the lowest branch of his grandmother's orange tree, playing around with the guitar and singing Don Williams to the sound of it. He began taking guitar lessons from a neighborhood friend's father at the age of eight.*

*When sitting down to write, Calvin often reflects on his achievements and failures, thoughts and feelings until he finds the special spark that will bring his next song to life.*

*Often, he finds himself forming relationships through his songs and having strangers turn into best friends simply through the magic of his music."*
